CREATE TEST PLAN

230701140

The screenshot displays the Azure DevOps interface for creating a test plan. The left sidebar shows the project structure with 'Test Plans' selected. The main area is titled 'SMS Test (ID: 45)' and shows a list of test cases. The 'Test Cases (1 item)' table is as follows:

Title	Order	Test Case Id	Assigned To	State
Verify SMS is sent successfully to a saved contact	1	46	Kanimozhi Ravic...	Design

The right sidebar shows the 'Steps' section for 'TEST CASE 46'. The steps are as follows:

- Open the SMS Messenger app → Expected: App opens without error
- Tap on "New Message" → Expected: New message screen appears
- Select a saved contact → Expected: Contact is selected
- Type message "Hello, this is a test" → Expected: Message appears in textbox
- Tap "Send" → Expected: Message is sent
- Verify message status → Expected: Status is "Sent" or "Delivered"

The right sidebar also includes sections for 'Deployment', 'Development', 'Related Work', and 'Status'.
